Claim 14 is rejected under 35 U.S.C. 102(b) as being anticipated by Browning. This rejection is maintained for reasons of record. Applicants' arguments regarding the clarity or significance of example 1 of the reference is not well taken. The examiner must look at what the example teaches. Regarding applicants' arguments concerning the amounts of triethanolamine stearate and polythene, instant claim 14 does not make clear to what the 0.5 to about 5 parts by weight refers. The claim does not require that these amounts of antistatic agent relative to the thermoplastic remain on the thermoplastic.

Claim 18 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 15-16 and 19-21 are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
